and addition of dyes, reliable

COLLAGEN PREPARATIONS.

What is Collagen?

THE PROTEIN OF „LIFE“

which binds cellular elements,
collagen is the **basic building material of the skin**
and connective tissue.

Collagen is present in:

- bones
- tendons
- joints
- walls of capillaries
- eyeballs
- heart
- liver
- kidneys
- lungs
- muscles

BALTIC

only

**NATURAL FISH
COLLAGEN**

can penetrate the skin and start
building in the tissue

BALTIC
COLLAGEN®

the **BIOCOSMETICS**

based on,

natural **COLLAGEN**

with a **VERY HIGH
CONCENTRATION**

The background features a light blue, semi-transparent image of a hand holding a DNA double helix structure. The hand is positioned on the left side, with fingers slightly curled. The DNA helix is oriented vertically, with its base pairs visible as horizontal rungs. The overall aesthetic is clean and scientific.

BALTIC
COLLAGEN®

**IS AN EQUIVALENT
TO THE NATURAL SKIN MATERIAL**

**AND IS NO DIFFERENT
FROM HUMAN COLLAGEN**

BALTIC
COLLAGEN®

High quality products with
molecular collagen, isolated
from the skin from
the most noble fish
